John,

Please see attached comments on the RTCs. Kim and I had also moved a few responses around for the April 25 Comment #6 – and I think Kim also has the latest version with this. In general, we need to update #6 to be more responsive. I also Cc'd Lisa Bercik with Aptim to review and make sure we are capture the addendum information and equipment specs correctly.

We also need to review all of the older December RTCs to make sure it still makes sense now that we have submitted the addendum.

We are hoping to get these out this week if it's possible. Please give me a call if you have any questions.

Thanks!

V/r,
Paul Stoick, P.E.

Hey Paul, I just finished with this. A few of the comments were specifically for your awareness so you may want to look at them before sending them on.

Sounds good. If you can't get to them Monday, do you think someone else at RASO will be able to look at them?

V/r,
Paul

I'll see what I can do. I'm leaving in 20 mins and I'm RDO tomorrow. Then I'm here Monday and TDY the rest of next week.

Matt,

We have drafted RTCs to the April 25 EPA comments received on the Parcel G WP – attached. All of the comments received on the draft final WP have been consolidated, and the new April 25 comments start on page 9-15.

Can you please review? I embedded my comments, and am trying to figure out if our response to Comment #5 is sufficient. The rest seemed pretty straight forward.

We are hoping to get these RTCs out to the agencies next week.

Thanks!!

Hi Paul,
As discussed here is my first draft of the RTCs (see pages 9-14 for the new comments and RTCs).

Note: there are comments in there for John to address and I will send an updated file later with revisions/additions.
Thanks!
Kim

Kim,

Please see attached comments. I was out of office Friday/Monday, and haven't had a chance to look in detail, but most of the comments look like one's we've received informally already.

Please start working to draft the RTCs, and let me know if you want to go over any of them.

Thanks!

V/r,
Paul
